Désinstallation

Étape 1 : Supprimer OCMOD

Cliquez sur “Extensions”->“Modifications” puis sur le bouton “supprimer” de “Module Visited Page.”

A screenshot of the Joomla! 'Modifications' list. The table shows one entry: 'Module Visited Page' by 'Samuel, Sacha et Jean-Cristophe', version '1.0', status 'Enabled', and date '25/06/2020'. In the 'Action' column, there are two buttons: a blue 'delete' button and a red 'delete' button. A red arrow points to the red 'delete' button. The table has columns for 'Modification Name', 'Author', 'Version', 'Status', 'Date Added', and 'Action'. The 'General' tab is selected, and the 'Log' link is visible. At the bottom, it says 'Showing 1 to 1 of 1 (1 Pages)'.

Modification Name ^	Author	Version	Status	Date Added	Action
Module Visited Page	Samuel, Sacha et Jean-Cristophe	1.0	Enabled	25/06/2020	 

Étape 2 : Supprimer Extensions

Cliquez sur “Extensions”->“Extensions”, sur “Reports” puis sur le bouton “supprimer” de “Visited Page Module”.
